2. COST VALUE STANDARDIZATION RULES

These rules were applied consistently across all SBC documents.

A. If SBC text = "No charge" or "Covered in full"

Network Cost value:

0

B. If SBC shows copay

Keep the value exactly as written.

Examples:

\$30 copay

\$50 copay/visit

\$100 copay per admission

C. If SBC shows coinsurance

Keep percentage exactly.

Examples:

20% coinsurance

40% coinsurance

D. If SBC shows "Not covered"

Grid value:

Not covered

E. If service does not exist for that plan

Grid value:

N/A

3. OUT-OF-NETWORK COLUMN RULES

If plan provides out-of-network coverage:
copy coinsurance or copay exactly.

Examples:

30% coinsurance

50% coinsurance

If plan explicitly says "Not covered":

value = Not covered

If plan type does not support out-of-network care (HMO / Essential plans):

value = N/A

4. NOTES COLUMN

Used only when SBC explicitly states conditions such as:

Precertification required
Copay waived if admitted
Deductible does not apply
Age restrictions

If no additional condition exists → leave blank.

5. SPECIAL CASE HANDLING

For indemnity plans (example: Sidecar Health):

If SBC states:
Provider charges $\leq$ benefit amount → No charge

Grid representation:
Network Cost = 0

If SBC states:
Provider charges above benefit amount

Grid representation:
Out-of-Network Cost = Patient pays amount above benefit amount
